

June 2025

To our business partners:

Olympus Terumo Biomaterials Corp.

### Announcement of Merger

This letter is to inform you that we, Olympus Terumo Biomaterials Corp (hereinafter, “Our Company”), and our parent company, PTCJ-6O Holdings Inc. (hereinafter, “Parent Company”), established by Polaris Capital Group Co., Ltd., in order to acquire our shares, will merge, effective August 1, 2025, under the condition that the Parent Company will be the surviving company and Our Company will be dissolved. The Parent Company will continue to exist and will inherit all of our businesses, rights, and obligations.

After the merger, the name of the Parent Company will be changed to “OSferionBiomaterials Corp.” (Japanese name: オスフェリオンバイオマテリアル株式会社), and the capital will also undergo a change. Rest assured that the Parent Company will act as a perfect successor to our business, retaining the existing organizational and executive structure and the head office address (1-50-1 Sasazuka, Shibuya-ku, Tokyo) as they are—that is, the merger will be a seamless transition, with no change to the manner in which our products and services are provided in accordance with our existing contracts with your company.

Your continuous support for and cooperation with our business will be greatly appreciated.

Best regards,
